

60cm Electric Built-in Oven, TFT display, total steam Modern Series

€ 1.850

F6011MODVTX

The Bertazzoni Modern Series 60cm built-in electric oven offers a best-in-class cavity capacity of 76 liters. With its 11 functions this oven is ideal for mid-to low-temperature cooking, such as baking or recipes that require slow cooking, like casseroles. The non-convection mode is excellent for baking cakes, while the fan-assisted mode ensures even heat distribution on all five levels for roasting and baking with no flavour crossover. The infrared grill gives powerful searing and grilling over a large surface area. The oven is easily managed through the clear full touch TFT display located on the black glass control panel which offers remarkable flexibility when choosing cooking modes. It also makes managing the food probe and Bertazzoni Assistant simple. The Total Steam oven helps you create fast and healthy meals, using water vapour to seal in both flavour, nutrients, vitamins and minerals. This makes cooking vegetables, fish and meats quick and efficient. A removable water tank lets you remove and refill without interrupting the cooking programme. The soft open-and-close door is safe and easy to use, fitted with an elegant glass-finished handle. The door is triple glazed for safety and energy efficiency. Available in Stainless Steel, Carbonio, Zinc and Copper.
